		Release						

Strong Points:	Pro Player this is a Powerful,agile,fast Offensive Guard with adnormal long arms. This guy will go get it. Excellant, Pull blocker, double team block, pass blocker. Great range of motion on blocking at the next level reaching the line backer. Well rounded IOL
Weak Points:	6'2 is the only reason you would this athlete is not in the 1st round conversation. UCONN run game is far better than some of the other D1 IOL guards

Summary: With this players agility, speed, power,quickness he should be consider a top 10 prospect as is his counter part at the other guard position in this draft

Comparison:
