QB

## STRENGTHS:

Pro Level looking QB . Best QB in the Draft that you never heard of. Tight spiral on all his balls. Power and great location on his balls. Excellent placement, great timing, and catchable distance on his balls. Does not put his receivers in bad situations. Commands his huddle. 2 time captain - great leader.

## WEAK POINTS:

Not a big name school, his history of transferring has hurt his chances of being well known. But his stats should get him a look.

## SUMMARY:

This is a diamond player and QB. We all know a QB can be taken last in the Draft and become best player every year. Someone needs to just watch the film and the execution and the poise of this guy. NFL QB.
