

# LAMAR WILKES

**CB**

**5'9" - 170lbs**

## **STRENGTHS:**

Well coached player, very disciplined, plays the game like a coach out on the field. Reads the formation, selects the play options and figures out what the play is by knowing the offense. Great feet, very athletic, breaks on the ball with speed, catches with his hands only. 50 50 balls are all his. Very talented athlete.

## **WEAK POINTS:**

His weight (180) and the size of his school is the only downfall that this kid has. He could have played at a much higher level.

## **SUMMARY:**

This guy is a true Diamond. If they can not find you, Then they cannot sign you. He needs a platform for him to be seen as a athlete, not where he played. Needs to be judged on success of his level of play and not the teams he played against.
